**Information on the collection of personal data  
to conduct a COVID-19 quick test  
and declaration of consent**

For the purpose of providing negative proof of entry to the school grounds and building and to prevent and control the spread of COVID-19, a Corona rapid test is offered twice a week to determine if you or your child has an acute COVID-19 infection. There is no cost to you for taking the test. The tests are carried out at school by the students themselves under the guidance of the teachers.

The test used is a so-called short nasal swab. All details about the test and how it is carried out can be found on the homepage:

<https://www.coronavirus.sachsen.de/eltern-lehrkraefte-erzieher-schueler-4144.html>

If the test result is positive, i.e. indicates an acute COVID 19 infection, the test person is obliged, according to the general decree for the segregation of contact persons of category I, of suspected persons and of persons tested positive for the coronavirus (identical general decrees exist in all counties and independent cities of Saxony; if necessary, please inform yourself on the respective website), to segregate himself immediately after becoming aware of the positive test result. Minors will be physically separated after a positive test result and must be picked up immediately by a legal guardian. School supervision obligations continue until the time of collection. In addition, the test person is obliged to inform the relevant health authority of the positive test result. The health office will then make further arrangements. In the event of a positive test result, the school is also obliged to inform the relevant health authority with contact details.

The withdrawal of consent must be made to the school.

---

**Consent:**

I hereby consent to the performance of the test and the processing of the above personal data for the purpose of detecting any COVID-19 infection and further to prevent the spread of this disease.  
The consent is voluntary and can be revoked at any time with effect for the future towards the school.  
The data processing, including data transfers, carried out until the revocation remains lawful.  
I am aware that in the event of a positive test result, there is a legal obligation to notify the relevant health authority. Any revocation of consent does not remove this legal obligation to notify.

Name and address of test person: \_\_\_\_\_

Signature if test person is of legal age:

\_\_\_\_\_  
City, date, signature of adult test person

Signature if test person is a minor:

\_\_\_\_\_  
City, date, guardian A/B

A copy of the signed declaration of consent must be provided to the adult test subject and/or their guardian upon request. 2
