

# World Fest 2024

## Raffle Information

### Campus Greening Project

We are raising funds for our Campus Greening Project! The concept was developed collaboratively between DIS students, who provided ideas for improvement of the schoolyard, and a student at the Technical University Dresden.

The project aims to:

- reduce campus heat retention as a climate mitigation strategy
- provide opportunities for sustainability education and active learning
- increase campus biodiversity
- increase access to green spaces and areas for relaxation.

The project will include removing areas of asphalt to plant directly in our schoolyard, facade greening, and raised planters for student participation and service learning. This will be done in phases. We are hoping to start the first phase of the project over the summer break (July/August 2024)

# Costs

The various sub-projects cost between 40,000 and 150,000 euros, some of which can be subsidized by the SAB (Sächsische Aufbaubank).

So far we have a pledged amount of 83,000 EUR from our community. We want to say a big THANK YOU to those who have already pledged to contribute to this project.
