## Educational Excellence and Intercultural Understanding

Dresden International School is a non-profit, non-selective, private, IB World School accredited by the New England Association of Schools and Colleges and the Council of International Schools.

Founded in 1996 in the culturally-renowned Saxon capital of Dresden, the school has grown from just a handful of students in the late 1990s to a thriving centre of learning for over 500 students from 55 countries. In two campuses spread through the Altstadt and Blasewitz neighbourhoods of Dresden, students pursue an academically challenging core of International Baccalaureate courses, complemented by a wide range of co-curricular athletic, artistic and academic activities.

Despite its growth, the school maintains exceptionally small classes led by qualified and experienced international faculty members. Graduates of the Dresden International School attend a variety of universities in countries around the world.

### Our Newest Graduates - Class of 2025

Dresden International School celebrated its 22nd graduation in June, 2025. 29 of the 32 members of the class of 2025 achieved the full International Baccalaureate Diploma with 100% pass rate. The average IB point total was 33 (global average of 30).

### The IB Programme at DIS:

All students at DIS pursue courses in the rigorous International Baccalaureate Programme.

Most students pursue the full IB Diploma, in addition to the Dresden International School High School Diploma offered by the school.

Students who successfully complete an IB Certificate in a subject have demonstrated college-level proficiency in that subject. Students who achieve the full IB Diploma have met exceptionally rigorous academic standards across the spectrum of disciplines. Students holding IB Diplomas and Certificates should be considered for advanced standing by universities.
